(Text must be outlined)

QR & BAR CODES

The minimum size of a QR Code is of 2 x 2 cm, otherwise, a QR Code scanner could have trouble scanning it and reading the alphanumeric data

Barcodes must be minimum 80% magnification - Any lower cannot guarantee to scan.

We recommend 100% black colour to ensure the scanner can see barcode.

SENDING FILES

Send all your file to our email, sales@happycups.co.uk

If the file is larger than 8mb, please send them through wetransfer.com
